## PROJECTS

### **HEART DISEASE ANALYSIS SYSTEM**

Industrial Project (Duration: 24-JUN-2019 to 29-JUL-2019)

It is a Python based Data-science project, which analyses various types of factors, which affects the heart disease...

Github link: <https://github.com/Rupak240/Heart-Disease-Analysis>

### **HEART DISEASE PREDICTION SYSTEM**

Final Year Project (2020)

Here we used Python, Django framework, HTML, CSS, JavaScript, Bootstrap etc and also the machine learning techniques for prediction...

Github link:

<https://github.com/Rupak240/Heart-Disease-Prediction-Master>

### **PERSONAL PORTFOLIO & TO-DO LIST** (2020)

These two small fun projects are made by using Python-Django and HTML,CSS, Bootstrap are also used there...

Github Link: <https://github.com/Rupak240/ToDo-Project>

Github Link: [https://github.com/Rupak240/personal\\_portfolio](https://github.com/Rupak240/personal_portfolio)

### **MACHINE LEARNING WEBSITE** (2020)

I made a machine learning informative website for my friends

Github Link: <https://github.com/Rupak240/ConceptAboutML.github.io>

Page Link: <https://rupak240.github.io/ConceptAboutML.github.io/>

### **iCODER RESPONSIVE WEBSITE** (2020)

This website is made only by using Bootstrap...

Github Link:

<https://github.com/Rupak240/iCoderResponsiveWebsite.github.io>

## LANGUAGES

C, Core Java, HTML, CSS, Bootstrap, JavaScript, Python, Python-Django etc

Page Link:

<https://rupak240.github.io/iCoderResponsiveWebsite.github.io/index.html>

## **RESPONSIVE FOOD WEBSITE** (2020)

Made by using HTML, CSS etc...

Github Link:

[https://github.com/Rupak240/Food\\_Responsive\\_Website.github.io](https://github.com/Rupak240/Food_Responsive_Website.github.io)

## **WORDPRESS BLOG WEBSITE** (2020)

I thought about blogging sometimes back, that's why I made this website...

Page Link: <http://rdsblog.unaux.com/>

(The link may be bit slow...)

### ***Here are the links of a few small fun Web projects listed below...***
